WELCOME TO NATIONWIDE

WHERE CRAFT MEETS ENGINEERING

British craftsmanship meets cutting-edge engineering. We manufacture premium composite doors that deliver industry-leading security, exceptional thermal efficiency and striking kerb appeal for homeowners across the UK.

As a dedicated manufacturer we control every step of production, combining high-quality raw materials with state-of-the-art machinery and rigorous quality checks — so every door performs flawlessly for decades.

Uncompromised Security

High-density foam or solid timber cores wrapped in a tough GRP skin, with multi-point locking and anti-snap cylinders.

Energy Efficiency

An advanced thermal core that beats timber and uPVC — eliminating draughts, keeping homes warm and cutting energy bills.

Endless Design

From timeless traditional to sleek modern styles, with a vast palette of colours, premium hardware and decorative glass.

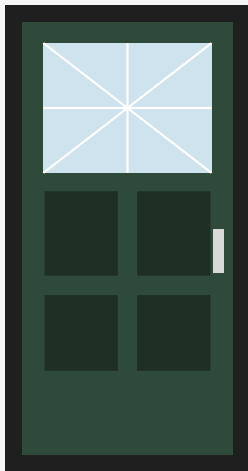

Low Maintenance

Never warps, rots or fades. No painting or varnishing — just a wipe with warm soapy water keeps it looking new.

OUR COLLECTIONS

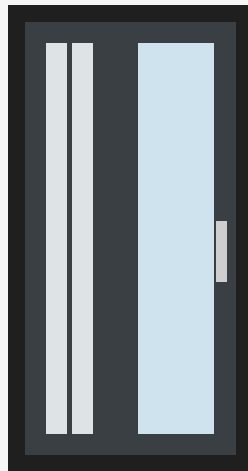

FIND YOUR PERFECT STYLE

Three distinct collections, thousands of combinations. Whatever your home's character, there's a Nationwide door to match.

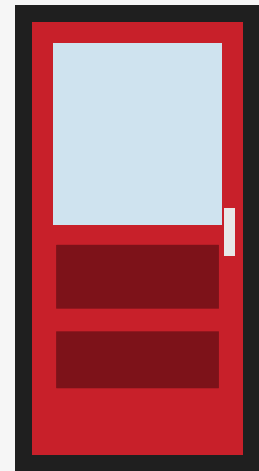

TRADITIONAL

Timeless panelled designs and classic detailing for period and country homes.

CONTEMPORARY

Clean lines, bold glazing and minimalist hardware for modern entrances.

DESIGNER

Statement colours, premium finishes and dramatic glass for standout kerb appeal.

DESIGN YOUR DOOR ONLINE · 1000s OF COMBINATIONS · MADE IN ENGLAND

COLOUR

OVER 300 COLOUR OPTIONS

A small selection of our most popular shades. Every colour is baked into the GRP skin — it never needs repainting and won't fade.
